## Monthly Meeting Board of Trade

Road Connection With Newly Ris-  
ing Towns Chief Subject  
of The Session

The regular monthly meeting of the Blairmore Board of Trade was held in the council chamber on Monday night, the following members being present: D. A. Sinclair, president; T. B. George, secretary; L. P. Roberts, H. E. Lyon, L. H. Putnam, J. D. S. Barrett, H. Taft, W. A. Beebe, L. Dutil, R. M. Brisco and W. J. Bartlett.

Minutes of previous meeting were read and adopted. A communication was received from the Crows' Nest Flour & Feed Co., asking the Board's support to a petition they proposed presenting the town council with a view to securing permission to place their runnel somewhere near the street line, instead of their present inconvenient location. Secretary was asked to acquire from the C.N.F. & F. Co. particulars such as location, conditions etc., and to further report at next meeting of the Board. An enquiry bulletin was received from the Lethbridge Board of Trade and ordered filed.

Forms were received from the C.P.R. to be filled out with data regarding our natural resources for use by the Department of Natural Resources. Secretary was instructed to have forms filled out with all necessary information.

L. Dutil asked if the Board had taken any steps in connection with the present excessive parcel post or express tariffs, and this matter came in for considerable discussion.

The matter of a merchants' protective union was also brought up, and most of the members present were of opinion that such an organization would be of great benefit to the business people of Blairmore, and thought that a well compiled "black list" of Bad Pays would assist the merchants materially and relieve many pockets of the dollar that honestly belonged to them.

The next matter to come before the Board was that long eye-sore that has deprived Blairmore of a two-sided commercial street. Mr. Putnam suggested that the matter be taken up with the C. P. R. at once, and that a proposition of give-and-take or buy-and-sell be made with a view to getting them to move their line some distance south, so as to permit Blairmore making use of the south side of Victoria Street. After considerable discussion Mr. Barrett moved and Mr. Brisco seconded that a committee comprising L. P. Roberts, L. H. Putnam, and W. A. Beebe, be appointed to examine the property, draw up the necessary plans, etc., and present for the approval of the Board and recommendation to the town council for their concurrence in the matter.

Mr. Barrett made reference to the inconvenience caused by not having a night telegraph operator stationed at Blairmore.

Barrett-Putnam-That sec-

## School Promotions

The following is a list of promotions made in Blairmore public school, June 28th, 1912:

Junior Grade I. Promoted to B Class—Martha Poyl, Gilbert, Bourgoin, Addie Hills, Rees James, Katherine Jebb, Sydney Love, Douglas Miller, Frank McLeod, Thelma Paterson. Teacher, Miss Tharrah.

Junior Grade I. Promoted to C Class—Duncan Baisel, Annie Doubt, Gaston Lumsley, Inez Molina, Vincent Morino, Elizabeth McLeod, Jessie McVey, Miriam Page, Florence Warner. Teacher, Miss Tharrah.

Junior Grade I. Promoted to Senior Grade I.—Wallace Beaul, Arthur Poyl, Edith Christopher, Annie Haber, Mabel Love, Cassie Lyons, Addie Matheson, Albert Monelli, Olga Monsoon, Josephine Olganovich, Thelma Pajoll, Donald Page, Mary Howell, Louie Rose, Mary Rose, Jennette Thibodeau. Teacher, Miss Darnach.

Senior Grade I. Promoted to C Class—Janet Archer, Marcelle Bohne, Frances Cleland, Denise Deopoy, Joe Drouart, Wilfred Dutil, Marion Ennis, Sam Gibson, Julius Haber, Geo. Handley, Marcel Leval, Gwen McDonald, Nicholas Thelen Oube, Albert Sparks, Bobby Sparks, Franklin Simpson, Edward Thibodeau, Russell Vincent. Teacher, Miss Cogland.

Senior Grade I. Promoted to Grade II.—Edward Boyd, Fred Cyr, Rita Dutil, Gladys Gibson, Lucy Hinds, George Lyon, Joe Mar, Katy Moxin, Sara McVay, Mariette Neuvray, Selma Oube, May Simpson, Thelma Vanderloft. Teacher, Miss Cogland.

Grades II. and III. Promoted to III.—Felician Allan, Mary Durnette, Alice Carter, Lida Mout, Beatrice Hinds, Charles Hinds, Katy Janigan, Arville McLeod, Virgil Page, Myrta Rose, Jeanne Stangue, Madeline DeCote, Pauline Bourgoin, Thomas Drouart, Annie Neuvray, Annie Sterba, On Dutil, Alfred Wilkins. Teacher, Mrs. Page.

Grades II. and III. Promoted to IV.—Willie Archer, Arthur Beaul, Bert Beaul, Marcel Cusheo, Ethel Doubt, Frances Drouart, John Handley, John Janigan, George Lyon, Andrew Mason, Ethel McLara, Nellie McVey, George Mills, Elvena McDonald, Ontrial, Frank Lolette. Teacher, Mrs. Page.

Grades IV. and V. Promoted to V.—Willie Beaul, Joe Boyd, Oscar Cauchie, Hector Badot, Joe Davis, Harry Jones, Joe Howe, Paul Lovers, Alex McVey, Annie Moxin, Julia Moxin, David Miller, Thomas Miller, Alex Neuvray, Percy Smallwood, Elsie Thibodeau. On trial, Finlay Patterson, Lela Kerr, Fred Nicholls. Teacher, Miss Fulton.

Grades IV. and V. Promoted to VI.—Beatrice Baisel, Lou Lyon, John McLeod, Martin Roetz, Millie Rose. On trial, John Baisel, Gladys Parvis, Grace Parvis. Teacher, Miss Fulton.

Grades VI. Promoted to Grade VII.—Katie Archer, Lily Harrison. Teacher, Miss O'Brien.

Grade VI. Promoted to Grade VIII.—Viville Patterson, Blanche Pinkney, Lela Parvis. On trial, Arthur Ennis, Ralph Loos. Teacher, Miss O'Brien.

The above lists are all given in Alphabetical order, not necessarily in order of merit. The Asterisks denote merit, i.e. those who led their class.

They write the superintendent of telegraphs at Calgary and railway superintendent Uren at Cranbrook, urging upon them the necessity of stationing a night operator at Blairmore.

The final subject of the evening was the matter of a road from Blairmore to York Creek. This matter was brought up by Mr. Lyon, who thought some steps should be taken in constructing the new town of York Creek with Blairmore by a graded road. All were of opinion that Blairmore was the nearest point of vantage for the workmen of York Creek to make a road to, and it was up to Blairmore to make a stride in this direction. A committee composed of H. G. Bigelow, L. Dutil, R. M. Brisco and L. P. Roberts was appointed to look over the grounds and report at next meeting.

Meeting adjourned at 10.45.

## The Keystone

### Cement Co'y

Issues Prospectus Outlining Proposed New Industrial Enterprise

The prospectus of the Keystone Cement Company has just been issued and contains full particulars of the object, location, directorship, etc., of the new company. The company's head office is at Calgary, where the duties of secretary-treasurer will be handled by Mr. A. E. Sullivan.

A. A. Muller, W. J. Pudd, R. Cross, C. A. McDonald, John George, D. Saitor, H. M. Pudd and Thos. Frayer, all of whom are well known in the financial and industrial world, form the directorship, while A. A. Muller and W. J. Budd are president and vice-president respectively.

The company has already purchased the plant of the Blairmore Brick Company, Ltd., and intend to operate that plant, which has a daily capacity of 20,000 bricks, in conjunction with their other vast enterprises.

The limestone properties of the company comprise what is considered the finest and most valuable in the whole Dominion, with a frontage of nearly 1500 feet and height of some two thousand feet above the level of the town of Blairmore.

According to the investing public the great advantages enjoyed by them in having all the necessary raw materials right at hand, which include rock shale and coal within one thousand feet of each other as well as a flowing stream of mountain water alongside, which will enable the company to manufacture cement at a very low figure and complete successfully against the great cement combines.

The company proposes to install the most modern cement making machinery obtainable and to house same in practically fireproof buildings. All the machinery will be electrically driven, which will avoid shut-downs, as each machine or its unit will be driven by its own motor.

Careful estimates place the cost of the plant ready to turn out 1,000 barrels of cement daily at \$300,000, but the buildings erected will be large enough for a mill of eighteen hundred barrels capacity.

The addition of this mammoth plant to the industrial byres of Blairmore will mean much more than can be imagined by the casual observer. The payroll alone when the plant is complete and in operation will amount to about \$180,000 annually, while the amount of labor to be employed in construction of the plant will mean an even greater monthly pay.

With the commencement of this plant, Blairmore will experience a new era of general advancement and expansion, and the laying of the corner stone of the Keystone Cement Company's plant will be heralded with joy throughout the whole Crows' Nest Pass.

## Public Notice

The adjourned meeting of the Court of Revision will be held in the Council Chamber on Tuesday, July 23rd, at 10 o'clock in the forenoon.

By order  
W. L. SHERA,  
Secretary-Treasurer,  
Town of Blairmore, July 16th, 1912.

## NERVES TO HIGH TENSION

Necessary in This Age of Keen Competition and Great Accomplishment.

When the Body Fails to Support the Brain Seek the Help of

## DR. CHASE'S NERVE FOOD

Nervous people are the salt of the earth. The great men and great women are usually those of nervous temperament.

But it takes an enormous quantity of brain of a highly tensioned nervous system.

Digestion fails because nerve force is lacking to control the flow of digestive fluids. A little extra excitement is followed by the agony of a sleepless night.

It floods the nervous system with irritation and loss of patience, you lack the reserve force which is necessary for success and to ward off disease.

Unfortunately nervous diseases do not right themselves and supply your digestive system fails to supply sufficient nourishment to support your external assistance such as Dr. Chase's Nerve Food.

This great food cure is not a narcotic to deaden the nerves. It is not a stimulant to whip up the nerves to renewed effort.

Dr. Chase's Nerve Food feeds the feeble wasted nerves back to health and vigor. It floods the nervous system with new rich blood, the only substance from which nerve force can be made. It can be had for \$2.50 at all dealers, or Edmunds, Bates & Co., Limited, Toronto.

### Severely Logical

It was a Welsh minister who described the devil to a little congregation in a remote Welsh valley. Said the minister:

"The devil is bound round the middle, with chains, and round the arms with chains and round the legs with chains. But John Jones, pointing to a man in the front row, 'he can reach you; and you, David Evans, pointing to one in the middle row, 'he can reach you; and you, William, he can reach you.' And then a man in the gallery called out: 'Why he might as well be loose.'—London Globe.

### Minard's Liniment used by Physicians

"Talk all day," said the learned counsel "saw that you will tell us truth, the answer to the fair witness interrupted. 'Will I be allowed to talk all the afternoon if I want to?'"

### Written Exercises

The teacher of a kindergarten class was absent in the morning and the young charges to bring written exercises from home in case they had time to do so.

After a half hour, which kept many of the younglings away, all but one brought a performance of some kind from their mothers. The one child was told to have a letter with him the next day.

"Dear Madam: Willie's legs are 10 inches long and the snow was two feet deep."

"Yours, etc."

Examiner: Now, suppose you found a man on the street so intoxicated he couldn't stand up, how would you treat him?

New Cop: I wouldn't treat him at all. I'd think he had enough, and tell him to go home and sleep it off.—New York World.

Will: "The sight of an old school mate is—well, it might be called both meat and drink."

Bertha: "Yes; that's what you mean. It's all in the circumstances."

Eth: "Meet and drink."

## ABOUT PAPER MONEY

Machine That Grinds Paper Dry and Then Stores It in Bags.

As the greatest difficulty which most people meet with in regard to bank notes is that of being able to burn them, it will probably come as a surprise to many to learn there are yet others for whom the difficulty consists in destroying such paper as well illustrated in a very interesting article upon paper destruction by the German Imperial printer.

The methods previously available were three—burning, boiling and pulping. In the first process it has been found that even where a special furnace has been used it has not infrequently happened that while the oil or parts of packets were destroyed some of the contents were not even singed in the case of stamps.

Gummed paper the matter was still worse, for the packets being torn into solid blocks, the interiors of which were quite intact.

In the second process the paper for destruction is placed in iron boilers, lime is added and the contents then subjected to the prolonged action of steam. In the first process it has been found that this is quite effective, as in that of pulping, a process in which the paper is cut up by revolving knives in water.

In both these cases there is, however, the danger of a slow and tedious process of the product. It cannot easily be sold, it will not pay to transport and on hand the sudden, stodge, mass quickly goes bad.

The German Imperial printer therefore, in the first process, tried to find a way of dealing with gummed paper, and it was found that a process of grinding and tearing rendered the paper to an almost pulverulent form, in which case it was found that a slow and tedious process of the product.

It is, however, was accompanied by a very objectionable feature, especially when dealing with gummed paper, and it was found that a process of grinding and tearing rendered the paper to an almost pulverulent form, in which case it was found that a slow and tedious process of the product.

It is, however, was accompanied by a very objectionable feature, especially when dealing with gummed paper, and it was found that a process of grinding and tearing rendered the paper to an almost pulverulent form, in which case it was found that a slow and tedious process of the product.

## NO OPERATION WAS EVER NEEDED HERE

BECAUSE MRS. GOODINE USED DODD'S KIDNEY PILLS

Doctor said she would have to undergo operation, but Dodd's Kidney Pills cured her.

Central Kingston, York Co., N.B. (Special).—The doctor said I would have to undergo an operation. So said Mrs. J. V. Goodine, of this place. But she smiled as she made the remark, for all need of the dreaded operation had vanished. Mrs. Goodine used Dodd's Kidney Pills and is a well woman. (Given in brief and in her own words, Mrs. Goodine's experience is as follows:)

"I was very miserable with Kidney Disease and unable to do my own work. The doctor said I would have to undergo an operation. After using three boxes of Dodd's Kidney Pills I was all better and able to do my household work. This statement is true and can be easily proved by enquiring among my neighbors."

Dodd's Kidney Pills cure the Kidneys, strain, and all the troubles of the blood. This Dodd's Kidney Pills cure for a natural cure for all Kidney diseases and all the troubles of the blood.

FORESTS AND WATER

Benefits of Manitoba Forest Reserves To Surrounding Country

The water supply of a district is always considerably influenced by the forests at or near the headwaters of its streams. This is one of the reasons why large districts have been set aside by the Government of the Dominion of Canada and many other governments, to be kept permanent.

The soil within the forest, largely composed as it is of decaying and decayed leaves, twigs and other vegetable matter, acts much like a sponge in soaking up the moisture which falls. On the other hand, the absence of high winds within the forest does much to prevent or lessen evaporation.

The Riding Mountain and Turtle Mountain forest reserves in Manitoba are good examples of this. The Riding Mountain reserve is the headwaters of the Minnedoua (L'Anse-au-Loup) river, one of the important tributaries of the Assiniboine from which, by the way, the town of Winnipeg derives its power. On the other side of the reserve issue many rivers, among which are the Red, Assiniboine, and others.

The last named is a source of water supply for the town of Dauphin.

In the Turtle Mountain forest reserve are to be found the sources of the Pembina and Winnipeg rivers, as well as of many smaller streams, some of which lose themselves in the prairie.

Butting away the forest from the headwaters of the streams would be like spring the melted snow which rush down these water-courses in a torrent and be wasted, not to speak of doing considerable damage to the country.

This is not only would the streams be deprived of any possible value in producing power, but their value to the soils of the farming districts in keeping up a steady supply of moisture would be much lessened, if not altogether destroyed.

Regarded as one of the most potent compounds ever introduced with which to combat all summer complaints and inflammation of the bowels, Dr. J. D. S. Kellogg's Dysentery Cordial has won for itself a reputation as a most reliable remedy for the summer complaint.

For young or old suffering from these complaints it is the best medicine that can be procured.

The railway lines of the Grand Trunk Pacific in western Canada are being increased about 10 miles in length each day in the present time, and with the arrival in less than a week of two more pioneers, this rate of progress will be doubled which means that, with the pioneers working steadily night and day, the company will build 120 miles of track in a week. Telegraph lines are being kept well up with the construction.

Keep Minard's Liniment in the house.

Impudent Jack

Della—Don't speak to Jack any more.

Nelle—What's the trouble?

Della—I told him the ladies' aid approved. He said he had the impudence to ask if it was ratified.

Explained it.

First little innocent: "I wonder why they call notices in church of people about to be married 'putting up the bans? What are the bans?'"

Second little innocent (confidently) "Notice for husbands, of course, dear. After marriages, you know, they put down."

Rough on Reggie

"Oh, my dear!" gasped Gertrude. "You heard about Reggie's hard luck?"

No. What is it?" asked Maude's good friend with a glow.

"She took Reggie's engagement ring to the jeweler's to be valued. Oh, poor Maude!"

"Well, that's nothing," sneered the other. "I always do that."

"But the jeweler refused to give it back to her. He said Reggie had paid for it."

Strategy Does the Trick

"A man at the door has one of those fly-bait schemes."

"Don't listen to him."

"But this seems all right."

"What is it?"

"It's a preparation to put on a convenient place in the house which makes it attractive to flies. The dealer then goes about and, every night you smear up on them and eat them."—Detroit Free Press.

## MANLESS EDEN

Froley, Near Paris Is Suffragette's Paradise.

Not fifty miles from Paris is a small town called Froley, which is literally run by women. This is not because the women are women with views but simply because the town is a town with needs, and there are no men here to fill the needs. Froley is in the heart of an agricultural province, and all the on-coming young farmers have migrated to more promising lands. Only the old men remain, and with the plough and the reaper they are kept too busy to give any attention to municipal affairs, much less hold office. So they have turned over the reins of village government to the women.

The mayor is a woman and the superintendent of the railway station is a woman; the mail-carrier is a woman and so is the village barber. The schoolmaster is a schoolmistress, and the postmaster is a postmistress. The telegraph messenger boy is named Miss Lesborne.

Not impressed

A certain gentleman who had acquired riches rather quickly, purchased an estate on the banks of the river Clyde which adjoins those of Lord Blantyre and Sir Charles Blount. Strolling through his place one day, he chanced to go too far and was accosted by a burly Scotch gamekeeper, who in language hardly called for a moment, I didn't get what I called it would, but then I hardly called it a would.—Everybody's Magazine.

David Harum's Rival.

There is a shrewd old farmer in Chenango county, New York, whose fame for driving a close horse track rivals that of David Harum.

"What'd you get for that old bay?" a friend asked him the other day.

"Well," said the old trader, after rummaging for a moment, "I didn't get what I called it would, but then I hardly called it a would.—Everybody's Magazine.

"Have you a spare cigar about you, old chap?"

"Certainly! But I thought you were going to stop smoking."

"So I am, but not too abruptly. I've already quit smoking my own cigars."—Boston Transcript.

## Full of Experience

Here is a story that the movement for good bridges has revived. A man applied for a job in a factory. "Do you know anything about grafting?" he was asked. "Well, I'll admit that I know something about it," said he. "I was county commissioner the year we let so many contracts for bridges."—Kansas City Journal.

## Cursey

A houseman called on Hodge to settle the damage done by a run to hounds, and found only Mrs. Hodge at home.

"Has your husband," he enquired, "made an examination yet?"

"Rather a cursory examination," replied Mrs. Hodge with a curtesy.

"Oh, dreadful, sir! Such language I never heard never!" And the good woman held up her hands at the bare recollection.

Little Mary was in the habit of posting her mother's letters in the pillar box. One day a friend called and asked her to do so.

"Oh, no, ma'am," cried the horrified child, "I should never be able to get in there."

Longest Span Bridge

It is claimed for the new double-deck bridge which is now nearly completed across the Missouri river at Kansas City that it is the longest span riveted bridge as yet constructed.

The length of the main span between the two towers is 440 feet, and the length of the structure is the fact that the lower platform can be raised against the towers by means of power-operated cables, drums and concrete counterweights.

The vertical travel of the platform is 48 feet and it is raised and lowered by two 250 horse-power motors.

Philosophy by Post

There was once a man who had a great scheme of philosophy to propound. He became so engrossed in his idea that he allowed his hair to flourish unreasonably, wore out of his clothing and generally went around in a sloshy manner.

"Humph!" said those who heard this. "He is only posing. He doesn't mean what he says."

So he began to dress and acquired clothing of the latest style and pattern. Having remodelled himself, he then began to talk up his philosophy to spread his new doctrine.

"Humph!" said the same people. "He is only bluffing. He doesn't know what he is talking about."

THE ACUTE PAIN FROM NEURALGIA

Permanently Cured Through the Use of Dr. Williams' Pink Pills

Neuralgia is not a disease—it is only a symptom, but a very painful one. It is the surest sign that your blood is weak, watery and impure, and that your nerves are literally starving.

Bad blood is the one cause of all the ills that afflict the human body. There you have the real reason why Dr. Williams' Pink Pills cure neuralgia. They are the only medicine that restores in correct proportions the elements needed to make rich, red blood.

This new blood reaches the root of the trouble, soothes the jangled nerves, drives away the nagging, stabbing, shooting, brain-racking pain in any other way. Among the sufferers from neuralgia, cured by Dr. Williams' Pink Pills, are Mrs. Charles Brown, Durham, Ont., who says:

"For months I suffered intensely from neuralgia. The pain in my head and face at times was so great as to be almost unbearable. I tried two doctors, and many remedies, with out finding a cure, as there seemed to be no let-up to the pain. Finally I was advised to try Dr. Williams' Pink Pills, and I began their use. Soon I found the pain becoming less and after taking 12 pills for some weeks the trouble entirely disappeared and has not since bothered me."

If you are suffering from any blood or nerve trouble don't try to cure your self. Today with Dr. Williams' Pink Pills. You can get these pills from any medicine dealer, or by mail at 50 cents a box, or direct from Dr. Williams' Pink Pills Co., Brockville, Ont.

**Editorial Notes**

The steps taken by the Blairmore Board

of Trade in getting road connection with

new centres are really commendable and

should be supported by every citizen and

business firm of the town. Such con-

nection will mean much to the town of

Blairmore as it will mean first the diversion

of much business here and eventually

assist in establishing Blairmore as the

commercial centre of The Pass.

A paper in B.C. takes pleasure in pub-

lishing an advertisement for itself in

which it announces it is doing planning

for all the leading business places between

Coleman and Lundbreck. That paper

should remember that the only leading

qualities of a firm who will send out of

town for material that could be procured

in town, are fastened to the wrong

end of the business, and "leading back-

ward" is sure to be their motto.

A well known Blairmore citizen, to

whom we are all supposed, to look as a

man devoted to the interest of the town

and its citizens who have sanctioned their

confidence in him by placing him in an

important office, went as far last week as

to send an order out of town for goods

that might have been procured in town,

and all to satisfy a grudge against our

local partner. There is always a better

means to settle personal grievances than

by killing two men to satisfy spite against

one.

**Monthly School Report**

The following is the report of attendance

for Blairmore Public School, during

the month of June, 1912.

Junior Grade I.—Number enrolled 45,

average attendance 37.23, percentage of

attendance 82.73, lates 11. Miss Darnach,

teacher.

Senior Grade I.—Number Enrolled 39,

average attendance 38.24, percentage of

**The July Rod And Gun**

"Reminiscences of a Sojourn at a

Hudson Bay Post" by Frank

Houghton, opening number in the

July issue of Rod and Gun in

Canada (W. J. Taylor, Limited,

Publisher, Woodstock, Ont.) con-

tains an interesting comparison

between the characters of the white

man and the Indian, illustrated in

the almost quixotic honesty dis-

played by "Wabun Anning"

in game temptation, in the guise of

imminent starvation, might well

have proved overpowering. A

profusely illustrated chapter of the

popular continued article, "The

Culture of Black and Silver Foxes"

is another feature of this issue

which contains many stories and

articles of outdoor life in the var-

ious Canadian Provinces.

**Edmonton Exhibition**

Great preparations have been made

for this year's exhibition, to be held

in Edmonton August 12th to 17th.

The Directors have erected a new

manufacturers' building and ma-

chinery hall, and are adding extra

space to the grounds for the accom-

modation of exhibitors of farm ma-

chinery. \$20,000.00 has been added

to the prize list this year, making a

total of \$45,000.00 in prizes and

purposes to be competed for. New

classes have been made for fine arts,

photography, women's work and

school children's work. The facilities

for unloading and loading stock

have been greatly improved, by ex-

tending the spur line along the east-

ern side of the grounds, and provid-

ing new unloading platforms for

horses, sheep and swine. The entries

will all be catalogued this year, and

for this purpose it is necessary that

all entries should be received not

later than the 29th of July.

**Happenings in and Around Blairmore**

Mrs. J. M. Carter is visiting

friends at Lundbreck.

James Serr and wife, of Cole-

man, spent Sunday with friends in

town.

Several parties scaled to the top

of Turtle Mountain on Sunday

afternoon.

John Herron, of Pincher Creek,

spent the early part of the week in

town.

Harry Hunter has taken up an

apprenticeship at the office of J. J.

Baker.

Dr. Wright, of Pincher Creek,

spent Saturday in town, attending

to dental work.

All the local grocery stores are

at present well stocked with fresh

ripe fruits of all kinds.

W. J. Budd, vice-president of the

Keystone Cement Company, was

in town last week.

"A Texas Rancher" appeared at

the local opera house last night,

and reappeared tonight.

Mrs. Latta, of Cowley, spent

several days with friends in town

and returned home Wednesday.

The concrete foundation for the

new addition to the public school

is being placed by E. Morino, con-

tractor.

Mr. Ferguson, inspector of

Southern Alberta telephones, was

in town last week on a tour of in-

spection.

Strawberries are fairly plentiful

in the north hills and several par-

ties were out picking them on Sun-

day last.

F. E. Hinds returned from Mon-

tana on Saturday, where he had

been touring by motor car for the

past couple of weeks.

D. C. Drain, proprietor of the

Blairmore hotel, returned on Sat-

urday from a visit to Edmonton

and other points north.

Rev. J. F. Hunter went to Dia-

mond City on Saturday, where he

officiated at the Baptist church.

He will return to town this week

end.

Rev. Pearson, of Passburg, offici-

ated at the Presbyterian church

last Sunday morning and evening,

and will supply again next Sun-

day.

Miss L. Latta returned the early

part of the week from Cowley,

where she had been enjoying

several days' lay-off from the city

excitement.

The Coleman Balletin is adver-

tising for a girl of 16 years to work

in office. Should Come to Blai-

rmore. All the girls here are exactly

sweet sixteen.

Feigned strawberry picking com-

bined with trout fishing upon

Sunday, is a combination that

doesn't quite meet the approval of

the mounted police.

Owing to congestion of night

school quarters, Rev. W. T. Young

is obliged to seek a larger building

in order to properly carry on his

work among the foreigners.

Don't forget the big sale at the

Crow's Nest Flour &amp; Feed Com-

pany's premises. Flour, hay, oats,

feed, butter, etc., are going home.

Sale prices only last till Saturday.

The moving picture shows up

on every other night at the opera

house, by Messrs. Travers and

drawing good crowds. The pic-

tures are about the finest yet shown

in town.

Work on the Comopolitan hotel is

progressing well, and the roof is

now crowning Blairmore's finest

building. The work of installing

the heating apparatus will shortly

commence.

We have been fortunate in

securing an able correspondent to

represent that division of Blai-

rmore South known as Beard's

Camp. Our correspondent has

undertaken to supply us with a

good batch of interesting material

weekly.

Mr. Flout, ex-managing direc-

tor of the West Canadian Col-

lieries, Ltd., arrived in Blairmore

on Sunday, and has since been

looking over the company's prop-

erties around this section of The

Pass.

The Court of Revision sat at the

council chamber on Tuesday last

to consider disputes against recent

assessments. Court adjourned

until next Tuesday when they will

meet at 10 a.m. in the council

chamber.

Rev. W. H. Groom, of Diamond

## Beard's Camp Notes

We are pleased to learn that the Socialist M.P. for the Rocky Mountain constituency was so warmly entertained at the Calgary lock-up. Nobs are too good to learn.

On Friday night last Mrs. McConnarty gave birth to a kid; or (using the modern slang) a bouncing baby boy. However, both father and mother are doing well.

Everybody are staying indoors lately to avoid being splattered with ink when the Blairmore mayor attaches his signature to the cheque which stands between the fire hall and the town.

Ha, ha, ha! There's no end to the Conservatives passing through here lately—all disgusted over the results of the Saskatchewan elections and taking to the woods where they might cool off in quietude.

We feel assured that His Highness the Duke of Connaught could not give us anything but "jump speeches" on his visit here in October. We would rather he'd wait till 1940, when Ned gets his acre cleared up.

This is said by the boys to be the hunting season. Ladies' hats should not be hung on trees near where "soft-nosed cartridges" are being used, or where Sparks are flying around. Blairmore ladies please take notice and go 'way back and sit down.

Uncle Ned has been busy the past three weeks decorating the mansion with evergreens and feathers and plumes obtained from the Blairmore milliner. Ned is very tasteful as a decorator, especially for such an occasion as the visit of the Governor General.

At a meeting of the city fathers on Sunday night it was decided to send a police patrol to certain parts of the Hog's Back, where it is said some people are getting more stuck-up than they should be. We are in sympathy with the council's move in this matter, for we are desirous of being humble at whatever post.

Our Methodist potentate states that someone was employed on Sunday blasting near the dam that supplies Blairmore with the only substitute for Alberta's Pride. His kildership intends to take the matter up with the Lord's Day Alliance committee at once, and see that no dam work will be carried on on Sundays in the future.

The smoke from the proposed Keystone cement works in Blairmore keeps the girls at the palace busy cleaning windows. Practice makes perfect, and as Jane anticipates entering into partnership with a Nova Scotia chap who recently arrived in Blairmore, she considers it wise to practice on the "imaginary" now in order to be proficient in future.

Ned was favored with another visit from the following representatives of Blairmore professionalism on Sunday: Doc Baker, Chief Irwin, bank manager Tait and Briscoe's skally wag. They did not stay to supper, although Uncle Ned urged upon them to have some fried Indian pinkies with spruce sauce. They report the keg in the corner of the dining parlor still dry.

A petition was sent to the Dominion government requesting that they take immediate steps to "gopher" the hills. In the writer's humble opinion, the bigger part of the Alberta Liberal administration should "go for" the hills. Anyway, we have not been molested by the howlings of the wild dogs lately, and are fearing they have all taken out fishing licenses, having learned that licenses were being issued to every Tom, Dick and Harry.

A general meeting of the Fault Finding Club was held in the upper flat of the camp on Saturday night with a view to exonerating a certain young lady of Landbrook from the blame of travelling at the

## Pastor's Don'ts

## For Wives

"Put these up in your wife's mirror where she can see them every morning," said the Rev. W. W. Bantard, Rockefeller's pastor of the Euclid Avenue Baptist church, in introducing "Ten Don'ts for Wives." His "don'ts are as follows:

1. Don't marry a man for a living but for love. Marriage without money is better than money without marriage.

2. Don't overdress or underdress. Common sense is sometimes better than style.

3. A wife with a hobble skirt and a husband with patched trousers make a poor pair. A woman can throw more out of a kitchen window with a spoon than a man can put into the collar with a shovel.

4. Don't think that the way to run a house is to run away from it. It is wrong to go around lecturing other women on how to bring up children while you are neglecting your own.

5. Don't tell your troubles to your neighbors. They have enough of their own. Fight it out with your husband if it takes all summer.

6. Don't nag. The saloon keeper is always glad to welcome your husband with a smile.

7. Don't try to get more out of a looking glass than you put into it. Nature's sunshine is better for women's beauty than man's powder and paints.

8. Don't make gamblers and drug addicts out of your children by running whist parties for prizes and serving punch with a sickle in it.

9. Don't forget to tell the truth, especially to the conductor about the age of your child; honesty is worth more to him and you than a nickel. A boy who is 8 years old and 6 on the ears will soon learn other things that are not so.

10. Don't forget that home is a woman's kingdom, where she reigns as queen. To be a mother of a Lincoln, a Garfield, or a McKinley is to be the mother of a prince.

For monies of the muscles, whether induced by violent exercise or injury, there is nothing better than Chamberlain's Liniment. This liniment also relieves rheumatic pains. For sale by all dealers.

## Control of Insect Pests in Canada

The Division of Entomology of the Experimental Farms Branch of the Dominion Department of Agriculture, Ottawa, has recently issued a bulletin by Dr. C. Gordon Hewitt, Dominion Entomologist, on "The Control of Insect Pests in Canada."

An account is given of the history of the war against insect pests in Canada and of manner in which insect pests have invaded the country as it has been gradually opened up and cultivated. The manner in which the Dominion Provincial governments are endeavouring by legislation and other means to prevent the introduction of insect pests into Canada and the license and spread of those pests already here is described. An interesting summary of the various lines of work undertaken and carried on by the Division of Entomology at Ottawa is given and the general public will no doubt be surprised at the many problems which come within the scope of the entomologists who are called upon to deal with insects in their relations to all the varied activities of man; insects affecting farm crops, fruit growing, forest and shade trees, insects attacking man's possessions and infesting houses, attacking domestic animals and finally afflicting the health of man. All insects, however, are not injurious and the work of the entomologist includes bees and beekeeping and the study of parasitic and other enemies which may be of assistance in obtaining control of insect pests.

Dysentery is always serious and often a dangerous disease, but it can be cured. Chamberlain's Colic, Cholera and Diarrhoea Remedy has cured it even when malignant and epidemic. For sale by all dealers.

rate of 29 1/2 miles an hour. It was the opinion of all the gentlemen present that no young lady would ever pass by a town that contained such fine looking young men as Burmis at anything swifter than a parlor-lounge speed. By a vote of 92-7 the young lady in question was exonerated from the charge.

## A RARE OPPORTUNITY FOR LIVE INVESTORS

## Lake City

Is the name of the Western Terminal Point of the proposed Crow's Nest Pass Electric Railway and is already tapped by the Pass line of the C. P. R., while the G. N. R. has already approached to within a few score of miles and must eventually pass through this admirably located town.

## Lake City

Is located by the shore of Crow's Nest Lake, only a few miles east of the provincial boundary between Alberta and British Columbia, and just north of the international line. In reality, it is at the top of Canada where the majestic Rockies tower in serene magnificence over great chasms and numerous floods, reflecting their presence on the waters of this beautiful lake. Here also are afforded the very best tasks for the daring mountain climber and for huntsman who desires to outlive the quiet ways of the Rocky Mountain goat, sheep, deer or elk, which are the monarchy thereon. In close proximity are numerous timber, mineral and fuel resources, development of which is now in its initial stages. These resources include gold, quartz, coal, iron and pulp wood. Crow's Nest Lake has long been looked upon with promise as an admirable location for health and tourist resorts, and but now this promise is being realized. Plans for hotels, etc. are being arranged, as well as boat houses, and the most modern pleasure yaws will soon glide over the surface of this beautiful lake.

But a few weeks ago lots were placed on the market, and the agents have had their hands full attending to purchasers. Prices run from \$150 up. For further particulars apply to the agents:

## WHAT TO DO RIGHT NOW

Practical Suggestions by W. J. Glass, Macleod, Alberta

(Written especially for the International Dry-Farming Congress Bulletin, "Dry-Farming.")

In answer to your inquiry as to what to do on the farm right now, I will say now is the time to get busy and work, get our seed into the soil (especially wheat), so that it will be mature before the frost.

We should have done our letter writing and studying during the winter months. Nevertheless, I will give a few hints as to how I work my land to prepare a seed bed and preserve the moisture, and also my opinion as regards the best periods to sow different cereals.

We all know that practically no fall plowing was done last year, therefore our land has either to be plowed this spring, or just disc and drilled. On account of such a short time to prepare a seed bed and preserve the moisture, and also my opinion as regards the best periods to sow different cereals.

Now, as to the cultivation needed after plowing or discing before drilling, all depends on condition of the soil. If very lumpy, disc, if not, the harrow will do. It should be cultivated with a harrow, not a plow, as the plow will turn the soil over and the wind is likely to blow the soil.

As to the time of seeding, I believe from April till the end of the first week in May is the safe time to sow wheat. I would not sow oats or barley until the end of May. Land that I had not seeded by that time I would summer fallow. I prefer to sow my oats and barley the last week in April or the first week in May and be through seeding by May 15th.

Summer Fallow. Do not leave your summer fallow too late, but plow in June. By leaving the weeds grow they take plant food and moisture from the soil.

Be sure and treat your grain for smut. I treat with formal at the rate of one pound to 35 gallons of water. I have never had any smut, but I treat as a rule. If you grow grain in smutty, make your solution stronger.

The system I follow is to pour 4 or 5 bushels of grain in a wagon box, sprinkle with ordinary garden sprayer the solution over the grain and stir until kernels are all moist, then shovel to the front end of the wagon box, then another lot, and so on. Cover up with a canvas for a couple of hours, and then spread out to dry. Haul the wheat out to the field and let the drill from the wagon.

I said at the beginning, this is a busy time, so would you do it now.

## HISTORIC TOWN VANISHING

First Capital Being Pulled Down by

Within a few months more the last traces of old "Kaskasia," first capital of the State of Illinois and one of the first settlements of the white man in the Mississippi valley, will have disappeared. The yellow Mississippi is steadily pulling down the remaining land that was once a part of the town site. All that now remains is an old building that was once used as a "smokehouse" by some of the citizens. Houses, powder magazines, stockades and fortifications have all slid into the river.

Kaskasia is still on the maps of Illinois, but the original town is at the bottom of the river. The best efforts failed to check the river's steady advances. A few years ago the Kaskasia river, usually known as the "aw river," began to cut into its western bank a mile or so above the town where it flows into the Mississippi. At high water the floor from the big river began leaping across a narrow neck of land that divided the two currents. Finally, the big river cut entirely across the spit of sand and rock that had separated the two and now the big river has one largest city.

One hundred and fifty years ago the spot where the smokehouse still lingers was the site of the largest city of the Allegheny mountains. In a few months more the last of the old town will have disappeared into the river and the island that was cut off from the mainland will itself disappear.

"You must not talk all the time," said the mother who had been interrupted for a minute or two. "When will be the old enough to marry?" asked the little girl.

"In Chapter I, he shoots at her five times. Ain't that awful?" "Yes, but then the girls are misleading. Myrna. There ain't no carat love like that in real life."

"Kindly adjust my lock of hair." "All right. Do you want the dark lock or the one you gave away when you were a blonde?"—Washington Herald.

"I think, dear, I'll make my will." "Why should you do that? You haven't anything to leave." "I know, but it seems to be the only way in which I can have a will of my own."—Pittsburg Post.

Shakespeare and Denver. A man named Taber, who had acquired considerably more of worldly goods than erudition, decided to build an opera house in Denver. He spared no expense in fitting it out with costly marbles and luxurious furnishings. The architect's design was to enclose the theatre in a series of galleries around the proscenium, letting the galleries be the names of famous lights of literature and drama. Milton, Garrick, Edwin Booth and Susan were all there, and in the very centre was the name of William Shakespeare.

"Taber came to the opera house one day for a final inspection, and spotted the frieze." "What's the name doing up there?" asked Taber.

"What name?" the architect asked. "William Shakespeare," said Taber. "What did William Shakespeare ever do for Denver?" Take his name down and put Taber in its place."—Washington Post.

"Thomas," said mother, severely, "some one has taken a piece of ginger cake out of the pantry." Tommy blushed guiltily. "Oh, Thomas," she exclaimed, "I didn't think it was in you!" "It ain't all," replied Tommy, "part of it's in Miss."

Knew Him by His Order. An English actor was a member of a company snowbound in the Sierras, while en route from California to the East. Before their train dug out by the snow plough they had been reduced to eating the coarse fare of the railroad kitchen and were all tired enough even of that. So that they all had a magnificent hunger on when the train reached a small station, at which there was a restaurant, and the Englishman was the first to find a seat at a table. "Bring me in a hurry," he said to the landlord, a burly Western man, "a port-rechoise steak, some deviled kidneys, a brace of chops, plenty of vegetables and two bottles of Bass' bottled beer." The landlord struck his head on the dining-room door and yelled to somebody in the rear apartment:—"Say, Bill, tell the hand to bring 'Rule Britannia,' the Prince of Wales has come."

..Rub It In for Lame Back.—A brisk rubbing with Dr. Williams' Electric Oil will have lame back. The pain will penetrate the tissues and bring speedy relief. Try it and be convinced. As the illness sinks in the pain comes out and there are ample grounds for saying that it's touch is magical.

The Man Was Willing. The man was one of the sort that women like because of their awkwardness, their ugliness and their dirt. He was tall, thin, and his legs were enormous. His chest was too big for his head, though he wore a 7 1/2 size in hats.

He was like a St. Bernard pup, but older than any young dog. He had never been in it regular dance before. The girls looked at delicate flowers to him, and he hardly dared to touch one of them. He looked to the girls like a new idea—and they hoped he'd arrive. He did, at a minute or two. He was died across the floor, made a stand in front of the little girl, and said, "I don't know, but I like you very much."—Cleveland Plaindealer.

"Can I dance with you?" She was rattled, but she answered with a smile: "I don't know, but I like you very much to let you try!"—Cleveland Plaindealer.

Just stop to think that Theodore Roosevelt is only one-hundred and forty thousand of one per cent of the population of the United States.—Albany Journal.

LESS TIME IN THE KITCHEN  
MORE TIME IN THE FRONT ROOM

That's your reward if you let MOONEY'S BISCUITS take the place of the bread and biscuits you bake yourself.

You'll find MOONEY'S a delightful substitute for your own best efforts—the family will like them. Because

MOONEY'S PERFECTION  
SODA BISCUITS

come to you straight from the oven in the big Winnipeg factory.

They have that freshness and crispness only to be found in a newly-made biscuit. No other biscuit can come to your table as fresh from the oven as MOONEY'S.

Get the big package or the sealed tin—both of them damp proof, dust proof, dirt proof—and

"LET MOONEY DO IT"

Not only this but these as well

Don't think that concrete can be used only for building bridges, silos, walls and walks; because if you do, you will probably overlook all the places where you can use it now.

T. L. Irving, of North Georgetown, Quebec, used concrete for 81 different purposes on his farm in 1911.

There are probably at least a dozen profitable uses for concrete on your farm at the present moment.

Perhaps you haven't thought of concrete, except for a new barn, or a silo, or some other big improvement for which you aren't quite ready yet. That's why you should read

"What The Farmer Can Do With Concrete"

It will open your eyes to the hundreds of uses that other farmers have found for this material. In plain language, and with the aid of many photographs, it explains just what these uses are, and how they can be applied to your farm.

Concrete can not only be used for all the purposes to which wood has been applied, but also many others for which wood would never be suitable.

It is not only a building material; it's a "handy" material, something you'll grow to depend upon more and more, as you learn its possibilities.

So write for this book. You'll find it isn't a catalogue, nor an argument for the use of concrete. Every one of its 160 pages is devoted to telling you what farmers have done and can do with concrete.

IT'S FREE FOR THE ASKING. Your name on a postal, or in a letter, will bring the book to you, or return mail. Or use the coupon. Address

Where the Account Is

# **=: THIS IS YOUR =: OPPORTUNITY**

It is by taking advantage of OPPORTUNITY when it comes that fortunes are made  
Here is a chance FOR YOU TO GET IN ON THE GROUND FLOOR of one of the BEST PROPOSITIONS in Alberta.

## **... Blairmore Brewing & Malting Company, Limited ...**

A Company incorporated under the laws of Alberta with a capital of

### **... ONE HUNDRED THOUSAND DOLLARS ...**

For the manufacture of BEER and BEER EXTRACTS and all kinds of TEMPERANCE DRINKS

The Company are offering for public subscription

### **SEVEN THOUSAND SHARES**

of the Capital Stock at Par Value \$5.00 Per Share

The purpose for which these Shares are offered is to pay for a portion of the necessary equipment for the brewery. The Company has already purchased the machinery necessary for brewing, part of which is already installed, and we expect to have the Brewery in operation in a very short time. The Company has been fortunate in securing one of the BEST AND MOST UP-TO-DATE BREWERS on the Continent who is at present superintending the installation of machinery.

#### **WATER**

The Company owns its Water Rights, with an ample supply of water for all purposes, brought direct from the spring to the works by pipes under a pressure of 150 pounds. An expert Brewer from Milwaukee said that the water asset of this Company was worth its total Capitalization.

#### **Water Analysis for Brewing Purposes**

Per cent. in 100,000 parts of water:

Total Hardness of Carbonate of Lime	17.57	Nitrates.....	.70
Loss on Ignition (organic matter and		Chlorine.....	.60
Dioxide).....	10.10	Phosphoric Acid.....	trace
Free Ammonia.....	.02	Sulphates.....	3.00
Nitric Acid.....	none		

#### **SITUATION:**

Blairmore Brewery is situated in the TOWN of BLAIRMORE. A Town that is rapidly growing in importance as an industrial centre. From Blairmore it is possible to reach by wagon the Towns of CARBONDALE, COLEMAN, FRANK, HILLCREST, BELLEVUE, LILLE, PASSEBURG, and several other small Mining Camps, all within a radius of about Four Miles, thus saving a great amount in railway freight. The estimated population of these towns is about 12,000, and the nearest brewery West is about 30 miles and the nearest to the East about 100. This as anyone can see gives Blairmore Brewery a decided advantage over any of its competitors, for the trade of The Pass.

#### **PRESENTATION OF STOCK**

In presenting this Stock to the public we firmly believe that we are presenting Stock that will merit the attention of the most conservative investor. We advise you to investigate this proposition at once, as we firmly believe that this stock will be sold in a short time and after this amount is sold the price will be at least double what it is at present. Prospectus and any other information will be sent on application. Send all monies to

THE BLAIRMORE BREWING & MALTING CO., LIMITED,  
Blairmore, Alberta.

#### **APPLICATION FOR STOCK**

Gentlemen,  
I hereby make application for..... shares  
of the Capital Stock of your Company to be issued in my name.  
Find herewith \$..... covering same  
Signature.....  
Address.....  
Date.....

## Happenings in and Around Bellevue

J. North, of Parkland, passed through on Tuesday night.

Mr. Fietot, of the West Canadian Collieries Co., was in the camp last week.

Rev. W. T. Young and wife, of Frank, were in the camp last Wednesday.

Fred Padgett has been transferred by the C.P.R. from High River to Wardner.

Mr. Madison returned from attending the funeral of his father-in-law in the States on Monday night.

A large number of Bellevue sports took in the Hillcrest-Blairmore football game at Hillcrest on Monday night.

The Hillcrest-Michel football match slated to be played at Michel last Saturday was postponed owing to the disengagement of a member of Bellevue players.

Preparations are under way for the big garden party to be held in Bellevue on Monday evening next, weather permitting. The Bellevue brass band will render music throughout the evening. No admission fee will be charged but patrons may purchase badges as souvenirs of the occasion. The proceeds will be divided between the Bellevue band and the Ladies' Aid of the Methodist church. Everybody should support these two worthy enterprises.

## Notes From Burnis

Mr. and Mrs. L. C. Stevens were week end visitors to Taber.

Inspector Belcher of the R.N.W.M.P. was in Burnis this week on his monthly inspection.

L. C. Stevens and J. W. Skilling were the Burnis representatives at the Southern Alberta League meeting held in Blairmore on the 12th.

Miss M. A. Murphy left town this week to take up her residence in Taber.

Mr. and Mrs. Thos. Duncan of Passburg were visiting friends in town this week.

Steen Sloan is contemplating taking a trip to his old home in Scotland about the end of the month.

George Ponder and Ben Reeves took in the O. A. G. demonstration in Lethbridge on the 12th.

Mrs. Geo. Hope and daughter took in the sights of Coleman this week.

Mr. and Mrs. P. Kahan and family have left town and gone to Passburg to reside.

T. Weaver J. Oakley and Oakley of Coal Creek have taken up their residence in Burnis, and are working on the new hotel.

The Little Burnis football game that was played in Burnis on the 10th, is scheduled to be replayed in Frank on the 20th.

A pony race has been arranged to take place at Passburg on the 22nd between George Carson's pony, Quercus and R. Glover's pony, Nellie, over a quarter mile course for \$150 a side. We look to see the Burnis horse win this race, so don't disappoint us, George.

Quite a large number of Burnis people took in the sports at Beaver Creek on the 12th, and report having passed an enjoyable day. In the afternoon race Jim Eddy's horse, Battle from Burnis won, beating Chappell's Mare Queen of the Woods from Bellevue by several lengths.

Backs, W. Love and A. Foulke, Hal backs, A. Lambeth, W. Moody and H. Pinkney; Forward, W. Russ, J. McAndrews, J. Kennedy, D. Frazer and R. Dunlop. Hillcrest—Goal, A. Crowther; Backs, A. Wicks and Adlam, Hal backs, Jno. Pettie, Ben. Calves and A. Watson; Forwards, Fred Taylor, Grimshaw, W. Rochester, J. Knowles and Len Adlam.

A special meeting of Blairmore Lodge No. 68, I.O.O.F., is called for 8 o'clock tonight, for the purpose of installing officers for ensuing term. A full attendance is requested.

Mr. L. S. Goss, manager of the Spectator at Macked, held a national club that evening, and left for home on the noon train today.

## Development At Hillcrest

Since the new tipple at Hillcrest was put into operation a few weeks ago the town has been enjoying a period of activity never before equalled during its history. The tipple itself is one of the masterpieces of modern engineering and is well worth a visit. The tipple was erected last winter, the Webster Manufacturing Company of Tiffin, Ohio, being awarded the contract, this company letting out another contract for the erection of the superstructure and housing of the machinery, to the Ottawa Road Car Loader Company of Ottawa, Iowa. The Webster people installing all the necessary machinery for the tipple and related conveyor.

The storage bins of this tipple have a capacity of some fourteen hundred tons of stock, screened and run of mill coal. The tipple and retarding conveyor are capable of handling some thirty-five hundred tons of coal each working day of ten hours.

The machinery of the tipple and conveyor is run by electricity furnished from the Company's new power plant erected during the strike last summer; the tipple, conveyor and power house all forming part of the entirely new plant. The Company is erecting the old plant having moved to be entirely independent to handle the ever increasing output of the mine.

In addition to their new tipple, conveyor and power house the new plant includes a wash house of the latest type for the use of the miners, sanitary and well lighted mine offices, car barns as large as any in the Pass, a lamp house and a cautious quarters' shop. Everything that has been built or installed is the latest thing in mine equipment and the plant as a whole is one of the finest, most complete and most up-to-date in Western Canada.

The coal mined in Hillcrest is shipped to all parts of Western Canada and the Western States, being shipped as far North as Saskatoon and Edmonton, as far East as Manitoba, while in the other direction Hillcrest coal is shipped as far as Portland, Oregon. The Canadian Pacific Railway takes a large quantity of Hillcrest coal, all it can get, in fact, and it is worthy of note that this corporation uses Hillcrest coal for their passenger locomotives only, sending it to all parts of Hillcrest this week.

Since his arrival in Hillcrest some months ago George has proved himself to be a thorough practical business man and Hughes is making no mistake in turning over all this important portion of the management of his hotel to George. The Union Hotel has always been one of the most popular houses in the eastern Pass and with George there to stir things up a little we believe the improvement will lead to make this hotel the best of them all.

The Lord High Admiral of the Side-spoons and the Most Mighty Minister Penitentiary of the Order of the Gutzkow visited Hillcrest last week and barely escaped with his life. His trail back to the backwoods village from which he had ventured under cover of darkness was easily traced by beer bottles thrown unwillingly aside by him to facilitate his escape from the wrathful Hillcresters. Presumably he managed to accomplish his return to his lair in safety, but the trail has been laid with 40 per cent against his return, which we hope will be in the near future. By the way, we would like to have inside information as to how the Order of the Gutzkow recovers their assistance of a few days ago to the effect that, teams in the Alberta Pass League really ought to play their members only and not outsiders, to the ruling of the committee of the League last Friday night, when it was decided that Burnis must play Blairmore again on this account, the infallibles having played a man against the rules of the League. But we presume that since is golden and more to be preferred than silver, we wish, fine gold—in this particular instance.

## Challenge

Thomas Tagelin, of Bellevue, hereby challenges any middleweight of The Pass to a boxing bout to be staged in a public building on any date to be arranged.

D. A. Atkins, Manager.

Buy it now. Chamberlain's Colic, Cholera and Diarrhoea Remedy is almost certain to be needed before the summer is over. Buy it now and be prepared to use it in emergency. For sale by all dealers.

## Happenings in and Around Frank

Milton Robinson, of Cowley was a business visitor in town on Tuesday.

John Harrow, ex-M.P., was a visitor here the early part of the week, and his many friends gave him a cordial reception.

The Imperial hotel is being put out, and the large plate glass windows have been removed from the front. The store formerly occupied by A. I. Blain is also being stripped.

If you are a housewife you cannot reasonably hope to be healthy or beautiful by washing dishes, sweeping and doing housework all day, and crawling into bed dead tired at night. You must get out into the open air and sunlight. If you do this every day and keep your stomach and bowels in good order by taking Chamberlain's Tablets when needed, you should become both healthy and beautiful. For sale by all dealers.

On Monday evening a meeting of citizens was held to hear certain propositions regarding the purchase of lots on the new townsite and removal thereto. The coal company arranged to sell lots according to priority—the first come first served.

A large number of sports enthusiasts attended the Blairmore-Hillcrest football match on Monday evening at Hillcrest, and reported one of the best and most exciting games of the season. Blairmore was defeated by good clean play and took her medical fine.

## Carver Seems to be

### Afraid of C. Burrows

Charlie Carver of Michel, B. C., who lays claim to the welter weight championship of Canada, has never issued a challenge to Charlie Burrows, the old war horse of the Pass, and unless he does and wins from Burrows the Michel man has no right to pretend to be the best welterweight boxer in Canada. Burrows says that he has tried time and again to get a bout with Carver but the latter has always declined to defend himself against the local man. Whether he makes the same excuse that Tommy Burns made when challenged by Bob Fitzsimmons—that the challenger is too old—we do not know, but one thing is certain that Carver would be kept busy to prevent himself from being knocked out by Burrows.

## Lethbridge Exhibition

The Lethbridge exposition grounds are an extremely busy place at present, a number of men being engaged under the various contractors in putting up new buildings and getting things in shape for the fair which will be held this year from August 19 to 21.

Buildings include an administration building, a poultry house, a dog house, a swine stable, a sheep stable, a lot of new stables for horses and cattle, a suitable entrance and various other improvements, all costing some \$25,000.

The result will be that Lethbridge will have one of the best equipped grounds in the west, and will be in a position to take care of the exhibitor in a satisfactory manner.

The premium list has been issued, large premiums being offered in all lines and there is a good chance for any farmer in the district to make an exhibit that will be a credit to the district and will also win for himself some of the good money that is being offered.

Premium lists and other information can be obtained from the manager, J. W. McNiel, Lethbridge.

During the summer months mothers of young children should watch for any unusual looseness of the bowels. When given prompt attention to this serious trouble may be avoided. Chamberlain's Colic, Cholera and Diarrhoea Remedy can always be depended upon. For sale by all dealers.
